

**Guy DeLeonardo, General Manager, Application Engineering
GE Power, Schenectady, New York**

Guy DeLeonardo is the General Manager, Application Engineering, for GE Gas Power. In this role, Guy leads product positioning, applications, and tendering to address customer, industry, and regulatory needs.

Guy joined GE in 1991 and has over 25 years of experience in the power generation industry. Prior to his current role, Guy held leadership positions in GE Power & Water and GE's Global Research Center in Niskayuna, NY, developing products and technologies for steam, gas and wind turbines, as well as gasification, GE Healthcare and GE Aviation.

Guy received his B.S. and M.S. degrees in Mechanical Engineering from Rensselaer Polytechnic Institute.
