NEW IN 2022! ONLINE ONLY
ASME Open Journal of Engineering

EDITOR-IN-CHIEF
Michael G. Pecht, PhD
University of Maryland, USA

ASSOCIATE EDITORS
Mamoun Alazab, PhD
Charles Darwin University, Australia

John Allen, PhD
University of Hawai‘i at Manoa, USA

Rouzbeh Amini, PhD
Northeastern University, USA

Asif Arastu, PhD
Unisont Engineering, Inc., USA

Mehmet Arik, PhD
Ozyegin University, Turkey

Nii Attoh-Okine, PhD
University of Delaware, USA

Jose Manoel Balthazar, PhD
Universidade Tecnologica Federal do Parana, Brazil

Antonio Barletta, PhD
Universita di Bologna, Italy

Rakesh K. Bhargava, PhD
Innovative Turbomachinery Technologies Corp., USA

Sifeng Bi, PhD
Beijing Institute of Technology, China

Sandra Boetcher, PhD
Embry-Riddle Aeronautical University, USA

Antonio Bula, PhD
Universidad del Norte, Colombia

Wayne Cai, PhD
General Motors, USA

TIMELY • ACCESSIBLE • HIGH IMPACT

ASME Open Journal of Engineering is a rapid turnaround, multidisciplinary, open access, and rigorously peer-reviewed publication that expands the ASME Journal Program to offer original research across the broad spectrum of all ASME technical communities.

ASME Open Journal of Engineering offers:

• High-impact, innovative articles that expand the scope of ASME’s traditional journals, including cross-cutting or multidisciplinary research in new or emerging areas

• Original findings on theoretical or applied topics related to mechanical engineering and allied disciplines

• New or improved engineering methods and solutions

• Compliance with funder mandates that require full open access

SCOPE
Addresses the foundations and boundaries of:

• Advanced Energy Systems
• Aerospace
• Applied Mechanics
• Bioengineering
• Computers and Information in Engineering
• Design Engineering
• Dynamic Systems and Control
• Electronic and Photonic Packaging
• Energy Resources and Power Generation
• Engineering Education
• Environmental Engineering
• Fluid Power Systems
• Fluids Engineering
• Gas Turbines
• Heat Transfer
• Internal Combustion Engines
• Management
• Manufacturing
• Materials
• Materials Handling
• Nanoelectromechanics
• Noise Technology
• Noise Control and Acoustics
• Nondestructive Evaluation
