

Peter F. Green

Deputy Laboratory Director for Science and Technology

Peter F. Green is the Deputy Laboratory Director for Science and Technology, and the Chief Research Officer (CRO) for the National Renewable Energy Laboratory (NREL). Green began his career at Sandia National Laboratories in 1985 where he later became Manager of Glass and Electronic Ceramics Research, from 1990-1996. In 1996 he moved to the University of Texas, Austin, where he became Professor of Chemical Engineering, and was the B.F. Goodrich Professor of Materials Engineering. In 2005 he was recruited to the University of Michigan to become Chair of the Department of Materials Science and Engineering. Green was the Vincent T. and Gloria M. Gorguze Professor of Engineering, and also Professor of Materials Science and Engineering, Chemical Engineering, Applied Physics. He was also the Director of the DOE Energy Frontier Center (EFRC) –Center for solar and thermal energy conversion (CSTEC).

Green is a former President of the Materials Research Society (MRS). He is a fellow of the American Association for the Advancement of Science (AAAS), fellow of the Royal Society of Chemistry (UK), fellow of the American Ceramics Society, fellow of the American Physical Society and fellow of the Materials Research Society. He was the inaugural editor-in-chief of MRS Communications (Cambridge Univ. Press). He serves on a number of advisory boards for universities and national laboratories. Green attended Hunter College, N.Y., from 1977-1981, where he earned B.A. and M.A. degrees in Physics and earned a doctorate in Materials Science and Engineering from Cornell University in 1985.
