

Roy Robinson – Chief Executive Officer

Mr. Robinson is an experienced offshore project management specialist and is knowledgeable in the technical and commercial aspects of offshore energy. During his career Mr. Robinson has held senior roles in diverse areas including cost estimation, information management, project and commercial evaluation, contracting, management, and engineering. He holds a Bachelor's of Science in Marine Engineering from Texas

A&M Galveston, a MBA from Herriot-Watt, and is a certified PMP.

Mr. Robinson co-founded Excipio Energy to provide a knowledge bridge between the offshore Oil & Gas industry and Offshore Renewable Energy; bringing Oil & Gas systems knowledge and practical experience to the Offshore Renewable Energy space.
