

Tim Simpson is the Paul Morrow Professor of Engineering Design & Manufacturing, Director of the world's first Additive Manufacturing & Design Graduate Program, and Co-Director of the Center for Innovative Materials Processing through Direct Digital Deposition (CIMP-3D) at Penn State. He specializes in Design for Additive Manufacturing, and he has helped educate and train more than 700 industry practitioners to use metal additive manufacturing. He contributes a monthly column on "Additive Insights" to *Modern Machine Shop*, and he is an Educational ADDVisor for The Barnes Group Advisors, a team of experts helping industrialize additive manufacturing.
