BJRS 2024
Bolted Joint Reliability Symposium 2024

Join us for the 2024 ASME Pressure Bolted Joint Reliability Symposium. The ASME PVP Bolted Joint Reliability Symposium (BJRS) promotes knowledge sharing, technological progress and international co-operation for advancing sealing technology for the oil and gas, aeronautical, automotive and nuclear industries. The presentations will disseminate the scientific and real-world knowledge in the area of sealing, including current and future design rules for bolted flange connections based on tightness (ASME SWG-BJ, EN1591), modern flange assembly guidelines and best practices (ASME PCC-1), gasket selection and assembly for obtaining desired performance/reliability (Example LDAR), and sharing of Lessons-Learned and Best Practices of critical applications including hydrogen technology.

General Topics
- Design Methods
- Assembly of BFJ
- Gaskets & Packings
- Leak Testing
- Critical applications
- Fastening and joining
- Valves and other leak tight equipment

Schedule
Abstracts of presentation are due by June 14, 2024. Authors will be notified of abstract acceptance by July 5 2024. Draft PowerPoint presentation submission by August 6, 2024.

ASME Course
Bolted Joints and Gasket Behavior — a two-day course scheduled on October 21 and 22 2024.

Information
The symposium website URL is: https://event.asme.org/BJRS. Technical presentation abstracts must be submitted electronically through he website. Please visit the website for additional information.
