

## **Track 11: Fluids Engineering Education**

Sponsors: Fluids Engineering Division

### **Topic 11-1: Advances in Fluids Engineering Education (FMTC)**

#### Organizers:

Ivana Milanovic: [milanovic@hartford.edu](mailto:milanovic@hartford.edu)

Ray Taghavi: [rtaghavi@ku.edu](mailto:rtaghavi@ku.edu)

#### Descriptions:

The Advances in Fluids Engineering Education topic invites submissions that explore innovative teaching methods in fluid mechanics. We welcome contributions related to novel curricula, courses, learning methodologies and teaching practices, both inside and outside the classroom. Topics of interest include laboratory setups, experimental learning, simulations, and unique design projects. The goal of this forum is to foster discussion and exchange of ideas among educators and engineers, ultimately enhancing the quality of fluids engineering education.
