

Mr. Mick Conway

Business Development Manager – **RWG**

Mick Conway is Business Development Manager at RWG, a global leader in maintenance, repair and overhaul of Siemens aero-derivative gas generators. Mick's career started with Rolls-Royce in 1978, working on experimental testing of civil and military aircraft engines. For the last 30 years, Mick's activities have focused on aftermarket services, working for specialist providers of maintenance support for aero, aero-derivative and industrial gas turbines.

Mick is an Associate Member of the Chartered Institute of Marketing (CIM) and board member of ETN Global, an organisation dedicated to building strong alliances between all stakeholders involved with gas turbines.
