

The Future of Standardisation

October 20th, 2022

I-AM 2022 International Additive Manufacturing Conference

10:30 – 10:45	Key Note The Future of Standardisation	Klas Boivie ISO
10:45 – 10:55	Large additive and subtractive manufacturing contributions and advancements in standardisation	Stewart Williams WAAM3D
10:55 – 11:05	Directed energy deposition additive manufacturing guidelines to determine system capabilities <i>(based on MULTI-FUN standardisation developments)</i>	Pedro Alvarez LORTEK
11:05 – 11:25	Panel Discussion moderated by Rita Bola EWF Additive manufacturing standardisation	Eurico Assunção EWF Teresa Melfi ASME Klas Boivie ISO
11:25 – 11:35	How to boost the relation between standardisation bodies, research and industry?	Martin Schaefer SIEMENS
11:35 – 11:55	Standardisation of advanced residual stress measurements EASI-STREES innovations	Nikolaj Zangenberg DTI
11:55 – 12:10	Panel Discussion moderated by Ana Cardoso (EWF) R&D Contributions to Standardisation	Nikolaj Zangenberg DTI Eurico Assunção EWF Teresa Melfi ASME
12:10 – 12:25	Key Note The Future of Standardisation	Teresa Melfi ASME
12:25 – 12:30	Closure, conclusions and wrap-up	EFW team
