## The 28th International Conference on Nuclear Engineering 2020 and Power Conference invite you to present your work during next year's co-located event in Anaheim, CA on August 2-6, 2020.

### About ICONE

The International Conference on Nuclear Engineering (ICONE) is the premier global conference on nuclear reactor technology for nuclear engineering professionals. This meeting hosts professionals from industry, government and academia from around the globe who gather each year to present and discuss cutting edge technical issues and solutions for the challenges that the nuclear industry faces today.

### Why submit?

This conference is key to anyone who wants to stay technically current and on top of the nuclear industry trends and developments. It features industry forums and workshops where International subject matter experts present their views and expertise on current topics of importance to the global Nuclear Community. Through the ICONE student program, the conference also fosters the development of future nuclear professionals.

### Topics

- Operating Plant Experience
- Nuclear Fuel and Engineering
- Instrumentation and Controls
- SMR and Advanced Reactors
- Nuclear Safety, Security, and Cyber Security
- Codes and Standards
- Thermal-Hydraulics
- Computational Fluid Dynamics (CFD)
- Verification and Validation
- Decontamination & Decommissioning
- Beyond Design Basis
- Nuclear Policy
- Probabilistic Risk Assessments

For more information: [event.asme.org/ICONE](http://event.asme.org/ICONE)

**Authors should submit a 400-word text-only abstract by November 25, 2019 on the ICONE website.**
