## About ICONE

The International Conference on Nuclear Engineering (ICONE) is the premier global conference on nuclear reactor technology. ICONE is for nuclear professionals. This conference is key to anyone who wants to stay technically current and on top of industry trends and developments, and features Industry Forums and Workshops where International subject matter experts present their views and expertise on current topics of importance to the global Nuclear Community. This meeting hosts professionals from industry, government and academia from around the globe who gather each year to present and discuss cutting edge technical issues and solutions for the challenges that the nuclear industry faces today. Through the ICONE student program, the conference also fosters the development of future nuclear professionals.

**We invite you to present your work at ICONE28 by submitting to one of the following Tracks:**

- |                |  |                 |                                    |
|----------------|--|-----------------|------------------------------------|
| <b>Track 1</b> | Operating Plant Experience                   | <b>Track 8</b>  | Computational Fluid Dynamics (CFD) |
| <b>Track 2</b> | Nuclear Fuel and Engineering                 | <b>Track 9</b>  | Verification and Validation        |
| <b>Track 3</b> | Nuclear Plant Engineering                    | <b>Track 10</b> | Decontamination & Decommissioning  |
| <b>Track 4</b> | SMR and Advanced Reactors                    | <b>Track 11</b> | Beyond Design Basis                |
| <b>Track 5</b> | Nuclear Safety, Security, and Cyber Security | <b>Track 12</b> | Nuclear Policy                     |
| <b>Track 6</b> | Codes and Standards                          | <b>Track 13</b> | Probabilistic Risk Assessments     |
| <b>Track 7</b> | Thermal-Hydraulics                           | <b>Track 14</b> | Student Paper Competition          |

**Authors should submit a 400-word text-only abstract by October 19, 2019 to the ICONE website to be available in early July 2019.**
