• TIMELY • ACCESSIBLE • HIGH IMPACT

The ***Journal of Nuclear Engineering and Radiation Science*** is ASME's latest title within the energy sector. The publication is for specialists in the nuclear/power engineering areas of industry, academia, and government.

SCOPE

- Advanced Reactors
- Beyond Design Basis Events
- Codes, Standards, Licensing and Regulatory Issues
- Computational Fluid Dynamics (CFD) and Coupled Codes
- Fuel Cycle, Radioactive Waste Management and Decommissioning
- Fusion Engineering
- Instrumentation & Controls (I&C)
- Next Generation Reactors
- Nuclear Education, Public Acceptance and Related Issues
- Nuclear Fuel and Materials
- Nuclear Safety and Security
- Panel Discussion
- Plant Operations, Maintenance, Engineering, Modifications, and Life Cycle
- Plant Systems, Construction, Structures and Components
- Radiation Protection and Nuclear Technology Applications
- Radiation Science
- Reactor Physics and Transport Theory
- Thermal Hydraulics
