Student Travel Award

The **2020 ASME-CIE Hackathon** will offer travel stipends (the amount is to be confirmed; tentatively $500) to support both undergraduate and graduate students attending the Hackathon.

Please note that there are only **a limited number of travel awards available** this year. Please self-evaluate and/or check with your advisor to determine if you should apply for a travel award or not. If so, please apply as soon as you can.

Eligibility:

ASME-CIE Hackathon Travel Award Applicants:

1) The student must be attending a university or college as a graduate or undergraduate student in 2020.
2) Applicants need to be a student member of ASME.
3) Awardees are required to register and attend the entire Hackathon event.

What to Submit:

The application should include:

1) A one-page personal statement. Please explain how attending to the ASME-CIE Hackathon will support your study, research and/or career development.
2) A one-page travel plan for attending the Hackathon. Please also indicate your travel budget and whether you have any additional sources of financial support.
3) A one-page resume. Please also include your ASME student membership information.
4) A support letter from your advisor is strongly recommended.

How to Submit:

Please prepare a single PDF file containing the four components and submit to SEIKM Secretary, Dr. Zhuo Yang at zhuoyang@engin.umass.edu. If you have any other questions, please address to ASME-CIE Hackathon Chair and SEIKM Award Chair, Dr. Zhenghui Sha at zsha@uark.edu.

Important Dates:

- Application for travel awards must be submitted by midnight (CST) on **June 19, 2020**
- Travel Award notifications will be sent to travel award applicants on **July 13, 2020**
