

## Earn Recognition for your Mechanical Engineering Research at IMECE 2021

**Submit Abstract**

Abstract Deadline: March 9, 2021

Are you looking for the right opportunity to debut your latest engineering-related research? ASME's International Mechanical Engineering Congress and Exposition (IMECE 2021) is THE perfect event to do it! Take this opportunity and promote your research to your peers and be viewed as an expert in your discipline. Abstract topics include:

- Acoustics, Vibration, and Phononics
- Advanced Manufacturing
- Advanced Materials: Design, Processing,
- Characterization and Applications
- Advances in Aerospace Technology
- Biomedical and Biotechnology
- Design, Systems and Complexity
- Dynamics, Vibration, and Control
- Energy
- Engineering Education
- Fluids Engineering
- Heat Transfer and Thermal Engineering
- Mechanics of Solids, Structures and Fluids
- Micro- and Nano-Systems Engineering and Packaging
- Safety Engineering, Risk and Reliability Analysis
- ASME International Undergraduate Research and
- Design Exposition
- National Science Foundation
- Research Posters

If you have any questions on the IMECE abstract process, please email: [congresshelp@asme.org](mailto:congresshelp@asme.org)

### More Networking and Enhanced Q&A

**IMECE2021** will have improved networking capabilities on our upgraded virtual event platform and more opportunities in the program to connect with your community, some of the enhancements may include:

1. Live, interactive Q&As enable each presenter to interact directly with attendees about their research
2. Time-shifted Sessions enabling more global participation in presentations and Q&A
3. Join moderated Discussion Groups or create your own group and invite your fellow attendees to a chat on a topic of your choosing
4. More social interactivity through hosted ice-breaker session with giveaways and other opportunities for spontaneous, casual moments with other attendees.
5. Connect at any time with other attendees to expand your network via 1:1 Chats.

Learn more about the enhanced networking features and more benefits of presenting your research at [IMECE2021](https://www.asme.org/imece2021).
