

# GLOBAL PIPELINE AWARD

## 2022 Key Dates

**Applications Due: 9/01**

**Winner Announced:**

**International Pipeline**

**Conference**

<https://event.asme.org/IPC>

## Purpose

To promote progress and international cooperation in the field of pipeline systems engineering by recognizing outstanding innovation and technological advancement in pipeline transportation through:

**Project Execution · New Technology  
Research · Field Application**

## Evaluation Criteria

- Relevance of the innovation to pipeline industry
- Effectiveness in resolving the stated problem
- Contribution improving the pipeline industry
- Impact on the environment
- Impact on public safety and welfare

## Value Proposition:

- Peer-group recognition
- International recognition
- Celebration of success
- Proof of purpose and value
- International recognition
- Recognition to aid in recruitment and retention
