

ASME® ISPS 2021

Information Storage and
Processing Systems

CONFERENCE
June 2–3, 2021

Online, Virtual

CALL FOR ABSTRACTS DEADLINE IS DECEMBER 7, 2020

ASME's Information Storage and Processing Systems Division invites you to present your work during next summer's virtual event to be held on June 2-3, 2021! Additional details on the tracks and the conference can be found online at <https://event.asme.org/ISPS>.

2021 TRACKS

Advanced Simulation in Science and Engineering

Application of Data and Artificial Intelligence in Mechanical Engineering

Dynamics and Control for Future Technologies

Flexible Media Handling Machines and Printed electronics, Exposing and Printing Technologies

Fundamentals on Energy Assisted Magnetic Recording

Micro/Nano & Biomedical Mechatronic Systems

Optical Imaging Devices and Opto-mechatronic Systems

Smart Materials

Smart Sensors and Actuators

Tribology, Dynamics and Servo control of Nano-Micro systems

For technical publication submissions, authors should submit a 400-650 word text-only abstract by **DECEMBER 7, 2020** on the ISPS 2021 website. Click on the SUBMIT ABSTRACT button. If you have submitted to ASME conferences in the past, simply login with your credentials. If you are new, then please create a user account. After you have logged into the submission site, simply follow the instructions. **SUBMIT YOUR ABSTRACT NOW at: <https://event.asme.org/ISPS>**
