

Victoria Fry is a Technical Solutions Executive at Autodesk out of Silicon Valley. Victoria works with Autodesk's named account manufacturing customers to deliver business outcomes through technical solutions. Autodesk has over 130 different software titles spanning additive manufacturing and fluid simulation to visual effects for major motion films. Victoria leverages her technical background to understand and solve engineering challenges with her Fortune 5 customers.

Prior to joining Autodesk, Victoria traveled the world licensing Chevron's hydroprocessing catalyst and technology to other oil majors. Victoria holds a BS in Chemical Engineering from University of Nebraska. During university, Victoria worked with Exxon Mobil & Goldman Sachs.
