Peer Review Management System (PRMS)

"The New Web Tool"

What is Different

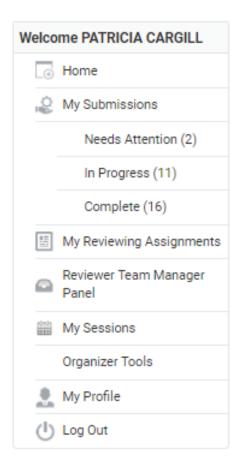

- This is not an apples to apples reproduction of the current system
 - Most functionality still exists
 - It may be in a different format or location
 - Staff will create all sessions
 - New Terminology
 - You will not see screens defined by roles of Symposium Coordinator, Topic Organizer, etc.

Schedule

- Process has many steps that must be done in series
 - All deadlines close at 11:59 pm ET
 - Reviewers will lose access to submissions at this time
- If you are late or incomplete to a deadline, it puts untenable pressure on the downstream steps
- Deadlines are *completion* dates, not start dates
- Start early!
- SC/TO/SO all need to check, monitor, support, and push along progress and quality throughout their span of responsibilities
 - Send reminders to start tasks and meet deadlines
 - Check status and address problems regularly

Overview of Navigation

My submissions

Authors

My reviewing assignments
Reviewer – review draft papers

My sessions

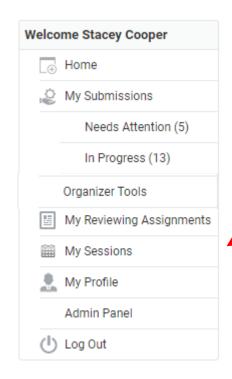

- SC/TO go into session, pull abstracts into sessions
- SC/TO assign session organizer, change title, description
- SO add co-chair, change title, description
- SO, TO, or SC reorder papers, remove papers, add to other sessions

Organizer tools

- All organizers shows big list of all abstracts and papers
- All organizers can export excel file showing all papers
- SO assign reviewers, view reviews, make paper decision

Note: Some navigation items will not appear until after a submission has been received.

You will need to assign papers to sessions in order to assign reviewers and review papers.

Note: Staff will create sessions for all tracks and topics.
