

POWER 2022

Power Conference

Responsible. Reliable. Power for All.

July 2022

Location TBA

Student Paper Competition

Your career can start here!

Make the difference at POWER 2022!

Abstract
deadline:
November
25, 2021

POWER 2022 offers an opportunity for students to present a technical paper on the state-of-the-art research fields in the area of power generation.

Submit an abstract if you'd like to:

- Present your paper and gain valuable insight and feedback to improve your research
- Be published in ASME proceedings
- Begin a lifelong relationship with ASME and the Power Division
- Network with the experts in your field

You will have the opportunity to get mentored by professionals in your journey to the conference!

You will have the opportunity to attend the panel sessions provided by the top ranked companies in the nation.

Winners receive a cash award (up to \$1,500) and all students who enter the paper competition receive complimentary registration.

For eligibility requirements and a full list of benefits, please visit the "student" tab at:

<https://event.asme.org/POWER>

DON'T MISS THIS OPPORTUNITY!

To be qualified the student must be the first author and submit a 400 to 650-word text-only abstract by **November 25, 2021** on the Power website.
