ASME Aerospace Structures, Structural Dynamics, and Materials Conference

June 8 – 10, 2026 | Long Beach, CA

THE CONFERENCE: SSDM provides a unique forum to bring together all industry, government, and academia stakeholders to share the latest research and developments in the established disciplines of structures, structural dynamics, and materials and their related areas. The conference covers all topics in these areas ranging from basic research to applied technological design and development.

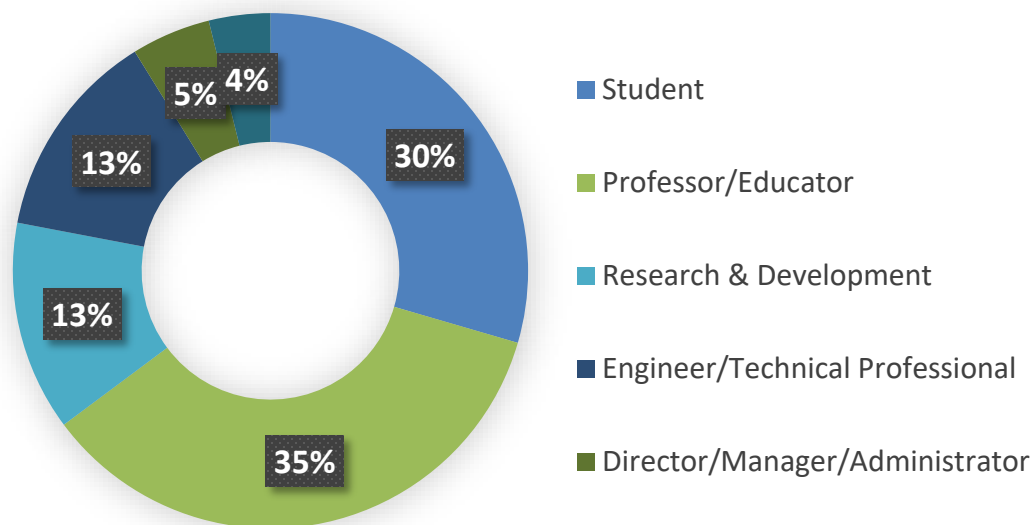

VENUE: Hilton Long Beach

WHY SPONSOR:

- **Global Exposure:** Connect with professionals from around the world, expanding your reach in the tech and engineering industries.
- **Targeted Networking:** Build valuable relationships with decision-makers and experts from top academic institutions, corporations, and government agencies.
- **Brand Visibility:** Showcase your products and services in a highly relevant and engaging environment, gaining visibility among those shaping the future of technology.
