

ONLINE FINAL PROGRAM / EXHIBITOR DIRECTORY
The online final program includes an alphabetical exhibitor list with brief company descriptions, a floor plan, and a product category directory.

A standard directory listing includes a 40-word description. For a nominal fee, you can expand your listing to **100 words** and add a logo. See the Final Program Advertising Insertion Order Form for pricing and ordering details. **Submit your logo and description by April 1.**

View the Turbo Expo 2026 Online Final Program—see pages 48–63.

PROGRAM ADVERTISING
Affordable advertising opportunities are available in the official Final Program. For pricing, visit the Turbo Expo Ad Insertion Order Form. **Ads are due April 15.**

ONLINE EXHIBITOR DIRECTORY AND PRODUCT LOCATOR
Exposure Beyond the Exhibit Hall
Each exhibiting company is responsible for accessing and updating its listing. Attendees will use the online exhibitor directory in the event app to search by product category and plan booth visits before and during the show. To appear in the Final Program, update your listing by March 15. Contact ASME if you need access to the site. Only one representative per exhibiting company may update the listing.

Your online listing increases visibility before, during, and after Turbo Expo. Customize your booth information, share press releases about new products, services, or booth activities, showcase your offerings, add a video, and link your social media channels—all included with your booth purchase.

See what attendees view in the online exhibitor directory. Click a booth listing to see an example of the information displayed.
