Scams Targeting ASME Turbo Expo Exhibitors

If you encounter any scam, you can report this incident to exhibits@asme.org.

Unauthorized Service Providers

As an exhibitor, you may be contacted by unauthorized service providers for audiovisual, carpet, exhibitor directory listing, etc. — who claim to be affiliated with ASME Turbo Expo. These solicitations may appear to provide cost savings; however, the rates listed could be misleading and, in some cases, the vendor may not be a credible supplier. The vendor for all booth services is GES and their information can be found in the Exhibitor Services kit.

Housing Vendors

For your hotel reservation in Calgary, the Conference has a few close by hotels to recommend. All four host hotels are accessible to the BMO Centre via Calgary's C-Train Route 201 (Red Line). Board at the station nearest to your hotel and ride to Victoria Park/Stampede Station, a short walk from the BMO Centre. Trains run frequently throughout the day, and total travel time from every venue is under 20 minutes. **Take caution with any solicitations that you receive other than the designated housing for the Conference.**

ASME Turbo Expo Attendee List

ASME **does not sell, rent, or distribute** any database lists, nor do we disclose email addresses. Statements claiming to offer these attendee lists are fraudulent. Please report the fraud to: https://reportfraud.ftc.gov/.
