

## **4th International Offshore Wind Technical Conference (IOWTC2022)**

**December 7 – 8, 2022**

**Northeastern University, Boston, MA**

IOWTC 2022 is an international assembly of engineers, researchers, technical specialists and students in the fields of offshore wind. It is an opportunity to exchange ideas on the advances in technology and its scientific support.

We expect attendees to include leaders from major companies, academics from the world's best universities and government representatives. They are involved in all aspects of offshore wind from the development of new technologies to deepening existing knowhow and reducing environmental impact.

The technical program will include state-of-the art manuscripts and presentations divided in two distinct tracks: Design and Engineering Track and Project Development Track.

There are various opportunities available to promote your organization, and we encourage you to consider sponsoring a range of activities to provide maximum exposure for your company. Some opportunities are limited and are available on a first come, first serve basis. If you do not see a sponsorship opportunity that interests you, please enquire about a customized partnership package.

Join us as a Sponsor to reach the world's leading ocean and offshore engineering specialists at Northeastern University in Boston, from December 7-8, 2022!
