## International Offshore Wind Technical Conference

2<sup>nd</sup> IOWTC, St Julian's, Malta, 3 - 6 November 2019

February 2019

We are pleased to invite you to participate in the sponsoring program of the 2nd International Offshore Wind Technical Conference (IOWTC 2019), to be held at the Corinthia Hotel, St. George's Bay, St. Julian's in Malta from 3 – 6 November 2019.

Representatives from industry, academia and government from around the world will come together to discuss the technical progress in the field of offshore wind in recent years, and confront the technical challenges for the near future.

This conference is organized by the ASME OOAEE division, which, year after year organizes the world-class OMAE conference, in collaboration with the University of Malta. We expect a considerable international attendance. Information on the conference can be found at:

[event.asme.org/IOWTC](http://event.asme.org/IOWTC)

There are various opportunities available to promote your organization, and we encourage you to consider sponsoring a range of activities to provide maximum exposure for your company. Some opportunities are limited and are available on a first come, first serve basis. If you do not see a sponsorship opportunity that interests you, please enquire about a customized partnership arrangement: i.e. How can we help you realize your marketing and promotional objectives?

Join us as a Sponsor to reach the world's leading ocean and offshore engineering specialists on the Mediterranean island of Malta in November, 2019!

## International Offshore Wind Technical Conference

The IOWTC Conference Organizing Committee is delighted to invite you to participate in the sponsorship program of the **2nd International Offshore Wind Technical Conference** which will take place, from 3 – 6 November 2019 at the Corinthia Hotel, St. George's Bay, St. Julian's on the central Mediterranean island of Malta.

There are a wide variety of sponsorship opportunities available. We are confident that you can find an activity to sponsor that will both match your budget and allow maximum exposure for your company.

In recent years, the OMAE conference has been the premier ocean, offshore and arctic engineering conference. With routinely over a thousand abstracts, this ASME division is now hosting the International Offshore Wind

Technical Conference which will draw together members of the scientific community, researchers, academia and the offshore wind engineering industry from around the world. We expect a significant attendance in Malta, with participants being drawn by the excellent technical content of OMAE conferences. Additionally, located in the central Mediterranean, Malta offers diverse convenient travel options from and to international destinations and also the opportunity to enjoy a diverse and vibrant island with a culture spanning across millennia that will enhance the turnout.

IOWTC will be co-sponsored by other international professional societies, many of which will actively promote the IOWTC conference to their membership, widening the reach of the conference and of your sponsorship.

## International Offshore Wind Technical Conference

**IOWTC 2019** is an international assembly of engineers, researchers, technical specialists and students in the fields of offshore wind. It is an opportunity to exchange ideas on the advances in technology and its scientific support.

We expect from between 100 to 200 professionals from over 20 countries. The attendees will include leaders from major companies, academics from the world's best universities and government representatives. They are involved in all aspects of offshore

wind from the development of new technologies to deepening existing knowhow and reducing environmental impact.

The technical program will include state-of-the-art manuscripts and presentations on the following topics, divided in two distinct tracks.

Along with the technical program, the conference will feature several social events affording informal networking opportunities. These include a welcome reception, luncheons, afternoon drinks and possibly a banquet.

### Technical Program

#### Scientific Track

- New Fixed Offshore Concepts
- New Floating Concepts
- Mooring & Foundations
- Offshore Turbines Modeling
- Aero-Hydro modeling
- Structural Analysis
- Offshore Wind Turbine Drivetrains
- Metocean
- Model Testing
- Field Data

#### Project Development Track

- Farms / Layouts
- Permits
- Environmental Issues
- Fabrication & Industrialization
- Installation / Commissioning
- O&M
- Decommissioning
- Asian Projects
- American Projects
- European Projects
- LCOE & Financing Challenges
