

2022 SPONSORSHIP OPPORTUNITIES

QNDE 2022

Quantitative Nondestructive Evaluation

July 25 – 27, 2022

San Diego, CA

About QNDE

QNDE, as a field of endeavor, is a highly interdisciplinary process that involves the use of various techniques to characterize materials and to detect both manufacturing and service-related anomalies in materials and structures which are important to safety in essentially all industries. The Annual Review is a meeting in which both advances in fundamental knowledge and new engineering applications in several measurement technologies — ultrasonics, eddy currents, X-rays, thermosonics and thermography, among others — are reported and discussed. For more than four decades, the QNDE Conference has been identified as the world's leading research/engineering conference in this specialized engineering field.
