

ASME SSDM 2024

Raise Your Company Profile at the 2024 the Aerospace Structures, Structural Dynamics and Materials Conference at Seattle's South Seaport!

Why Exhibit

Get the word out about your products and services while gaining access to aerospace professionals from academia, government and industry. Share insights and learn more about your customers' needs with three days to showcase your company's assets and expand your customer base.

SSDM gathers aerospace structures, structural dynamics, and materials engineers and researchers from industry, academia, and government agencies to discuss technical advancements in this growing sector.

The events include the industry's latest research, technical advances, development trends and business strategies. 2023 Topics included Structures in Extreme Environments, Wind Energy, Structural Dynamics of Launch Vehicle and Spacecraft, Machine Learning in Structural Dynamics and Aeroelasticity, Nanomaterials, and Damage, Fatigue, and Fracture to name a few.
